

PRESS RELEASE – 27/05/2021 – LYNQ MES APPLICATION CERTIFIED BY ACUMATICA

LYNQ MES is recognized as an “Acumatica-Certified Application” by the cloud ERP company.

LYNQ today announced that its manufacturing execution system (MES) software has been recognized as an Acumatica-Certified Application (ACA). Acumatica, the world’s fastest-growing cloud ERP company, was recently recognized as a Leader in the IDC MarketScape: Worldwide SaaS and Cloud-Enabled Medium-Sized/Midmarket Business ERP Applications 2020 Vendor Assessment.

Acumatica is a comprehensive, browser-based Cloud ERP solution optimized for ease of use, adaptability, mobility, speed and security. The ACA title highlights outstanding development partners whose applications have met the highest standards set for Acumatica integration and functionality.

“Customers who want to stay competitive need flexible, responsive technology to execute their long-term business strategies,” said Christian Lindberg, vice president of partner solutions at Acumatica. “Our ACA label is built to help customers find applications capable of delivering that. We’re proud to recognize LYNQ MES as an Acumatica-Certified Application. It masterfully utilizes the Acumatica platform to meet customers’ evolving business demands.”

To become an Acumatica-Certified Application, LYNQ MES has demonstrated commitment to quality by passing the Acumatica software test and aligning to future Acumatica roadmap releases.

“We’re honoured to receive this kind of recognition from Acumatica,” said Mark Gregory CEO, LYNQ. “This is a testament to the strength of our application and the depth of our integration with the Acumatica platform. LYNQ MES provides visual planning and scheduling as well as comprehensive manual and automatic data collection and analysis from employees and machines to enable manufacturing companies to maximize efficiency, productivity and profitability.”

ABOUT LYNQ

LYNQ, headquartered in the UK, is reinventing manufacturing execution system (MES) software. Configurable, intelligent and quick to deploy, LYNQ helps manufacturers around the world thrive in today’s competitive market. One solution for effective resource management to plan, track, automate, analyse and optimize job, batch and production line environments. Deployed in 12 weeks and delivering ROI in less than 6 months. For more information, visit <http://www.lynqmes.com>.
