

## PRESS RELEASE – 16/09/2021 - MOMENTUM OFFICIALLY PARTNERS WITH LYNQ

**Momentum Software Solutions has today officially become a Bronze LYNQ MES partner and is a MYOB Advanced Platinum Partner in Queensland, Australia.**

LYNQ MES extends Momentum Software Solutions portfolio of solutions in order to provide comprehensive manufacturing functionality to digitalise and drive factory performance. LYNQ's MES (Manufacturing Execution System) integrates with MYOB Advanced to provide visual planning and scheduling as well as comprehensive manual and automatic data collection and analysis from employees and machines. This enables manufacturing companies to maximize efficiency, productivity and profitability, advancing digital transformation throughout the entire manufacturing process.

“We are delighted to be partner with LYNQ MES and enhance our solution offering to our customers and prospects in manufacturing” Alistair Emery, Managing Director - Momentum Software Solutions. “LYNQ MES provides the missing ingredients and sophistication needed by larger manufacturers. ERP/MRP software is great for managing BOM's, Routing, Costs, Production Management and MRP, and is good (but not great) at Planning & Scheduling, Employee and Machine Utilisation, Machine Integration and Shop Floor Data Collection. The combination of MYOB Advanced Manufacturing + LYNQ MES is compelling”

### About Momentum

Momentum Software Solutions are a fully accredited, multi-award-winning MYOB Platinum Partner, providing tailored MYOB business management solutions to bigger businesses throughout QLD, NSW and the Northern Territory. Based in Brisbane and on the Sunshine Coast, Momentum have been empowering people in business and helping them think bigger for over 11 years. Momentum have one of the most experienced cloud ERP & MRP consulting teams in Australia and have completed over 300 software implementations. They provide tailored cloud ERP solutions to a range of industries but specialise particularly in the manufacturing industry.

### About LYNQ

LYNQ is reinventing manufacturing execution system (MES) software. Configurable, intelligent and quick to deploy, LYNQ helps manufacturers around the world thrive in today's competitive market. LYNQ technology drives continuous improvement with plug and play manufacturing operations management software, that is easy to work with and enjoyable to use. Designed, developed and deployed to a high standard for a fraction of the typical cost, LYNQ MES accelerates digital transformation and automation initiatives to achieve delivery, quality and financial goals.
