PRESS RELEASE – 17/1/2022 – MAXQ TECHNOLOGIES OFFICIALLY PARTNERS WITH LYNQ

**MaxQ Technologies has officially become a Bronze level LYNQ MES partner.**

LYNQ MES extends MaxQ Technologies' portfolio of solutions in order to provide comprehensive manufacturing functionality to digitalize and drive factory performance. LYNQ's MES (Manufacturing Execution System) integrates with MaxQ and Acumatica manufacturing to provide visual planning and scheduling as well as comprehensive manual and automatic data collection and analysis from employees and machines to enable manufacturing companies to maximize efficiency, productivity, and profitability.

Effective and competitive manufacturing requires tools to manage a multitude of complicated elements. These tools include planning, tracking, and analyzing data. One of the most challenging aspects of manufacturing is ensuring operational efficiency and cost control. With its plug-and-play integration with Acumatica ERP, LYNQ MES is designed to increase the effectiveness of manufacturing resources to drive efficiency profitability.

"We are committed to providing our clients with the tools they need to optimize their operations and maximize their profits. LYNQ MES offers intelligent software that includes all the features a manufacturer needs for effective and efficient resource management. We are happy to announce our partnership with LYNQ as part of our commitment to provide the best integrations for our customers," said John Pavain, President of MaxQ Technologies.

#### **About MaxQ Technologies, Inc.**

MaxQ Technologies, Inc. is a leading Value-Added Reseller and Independent Software Vendor specializing in providing business solutions for the cannabis industry. A recognized leader for 35 years, MaxQ is committed to helping cannabis companies organize, update, optimize, and grow their business using cloud technology with the right software. The commitment to innovation, industry expertise, and exceptional service is just one reason why so many cannabis companies rely on MaxQ Cannabis.

#### **About LYNQ**

LYNQ is reinventing manufacturing execution system (MES) software. Configurable, intelligent, and quick to deploy, LYNQ helps manufacturers around the world thrive in today's competitive market. LYNQ technology drives continuous improvement with plug-and-play manufacturing operations management software, that is easy to work with and enjoyable to use. Designed, developed, and deployed to a high standard for a fraction of the typical cost, LYNQ MES accelerates digital transformation and automation initiatives to achieve delivery, quality, and financial goals.
