

## PRESS RELEASE – 28/07/2022 – SYNERGY PARTNERS WITH LYNQ TO PROVIDE THE BEST INTEGRATION FOR ITS CUSTOMERS

Synergy Resources, LLC (Synergy) a privately held Company headquartered in Islip, New York, today announced a partnership with LYNQ as part of a commitment to provide the best integration solutions for its customers.

“This Partnership extends Synergy’s portfolio of solutions to provide comprehensive manufacturing functionality to digitize and drive factory performance,” said Michael Canty, Executive Vice President at Synergy. “LYNQ’s comprehensive capacity planning, scheduling, automatic data collection and analysis capability quickly enables manufacturing companies to enter the digital transformation era and maximize machine efficiency, employee productivity, and profitability.”

### About Synergy Resources, LLC

Synergy brings together a collaborative team of experts, best-in-class ERP solutions, a world-class Partner group, and proven best practices to create tailored solutions that provide companies a dynamic advantage now and in the future. Helping growth-oriented leaders make confident core business and technology decisions allows them to take their organization from solid to unstoppable.

Synergy’s ERP Application and Technical Support teams guide our clients through the proper steps needed to deploy and optimize their ERP, WMS, CRM, QMS, and other business management technologies.

The Center of Excellence delivers advice, insight, and support based on decades of deep industry experience with real-world best practices and outcomes in the area of Organizational Change Management, Supply Chain Management, Lean Practices, Materials & Inventory Control, and Production Management while helping our clients make the most of technology and resource investments.

Synergy’s in-house Innovation team is dedicated to continuous improvement, developing and commercializing client-requested tools that augment ERP functionality across our customer base.

### About LYNQ

LYNQ is reinventing MES software. Configurable, intelligent, and quick to deploy, LYNQ helps manufacturers around the world thrive in today’s competitive market. LYNQ’s MES integrates with Acumatica ERP to provide digitized planning and scheduling visibility as well as comprehensive automatic data collection and analysis for employees and machines.

The LYNQ technology is often used to drive continuous improvement with its plug-and-play manufacturing operations management software, which is easy to work with and enjoyable to use. Designed, developed, and deployed to a high standard for a fraction of the typical cost, LYNQ MES accelerates digital transformation, increases the effectiveness of manufacturing resources, and drives profitability.
