

PRESS RELEASE – 19/10/2022 - FRONTLINE OFFICIALLY PARTNERS WITH LYNQ

Frontline has today officially become a Bronze level LYNQ MES partner.

LYNQ MES extends Frontline’s portfolio of solutions in order to provide comprehensive manufacturing functionality to digitalise and drive factory performance. LYNQ’s MES (Manufacturing Execution System) integrates with SAP Business One to provide visual planning and scheduling as well as comprehensive manual and automatic data collection and analysis from employees and machines to enable manufacturing companies to maximise efficiency, productivity and profitability.

Frontline has been delivering SAP Business One solutions to customers for 15 years with a vision to drive business success through technology solutions and best in class customer service. As a leading and established SAP Business One Gold Partner, Frontline has a dedicated in-house team of experienced and skilled SAP Business One consultants and has helped hundreds of manufacturing customers streamline key business processes.

LYNQ’s MES leading-edge single solution can plan, track, automate, analyse and optimise factories to increase efficiency, productivity and profitability. Whether you do Make to Order or Batch manufacturing, LYNQ MES has the tools to increase visibility, schedule your production according to capacity, capture resource usage during production and analyse and reduce loss.

“We’re delighted to be partnering with LYNQ as their MES solution will help our manufacturing customers get more out of SAP Business One by embracing this leading-edge technology to digitalise and increase production performance.” Tony Hilton, Director

About LYNQ

LYNQ is reinventing manufacturing execution system (MES) software. Configurable, intelligent and quick to deploy, LYNQ helps manufacturers around the world thrive in today’s competitive market. LYNQ technology drives continuous improvement with plug and play manufacturing operations management software, that is easy to work with and enjoyable to use. Designed, developed and deployed to a high standard for a fraction of the typical cost, LYNQ MES accelerates digital transformation and automation initiatives to achieve delivery, quality and financial goals.
